Experience ago-pastoralism by mountain bike, but do it the relaxing way on a hybrid mountain bike with an electric motor to help you pedal. Travel with a guide and navigate the beautiful Larzac countryside. From the vast open wilderness, to small secret corners that are inaccessible by road, as well as centuries-old drover's roads... there are thousands of treasures to be discovered, just for fun, with family or with friends. A visit to a sheep farm is part of the tour and you will be able to soak up a little more of the agriculture of the Causses. Sheep will no longer be a closed book for you!
