Leader: Xavier Chabanne, mountain bike instructor

Material: ELECTRIC MOUNTAIN BIKE (top-end "Moustache" brand)

Remember to wear closed trainer-type shoes and bring water.

Let's go exploring effortlessly and silently on our "e-machines" and discover the limestone labyrinths of the Southern Larzac. These forests of rocks with their sometimes evocative shapes: giant mushrooms, animals of all kinds or ruins of a forgotten village ... will be the starting point for stories and legends that we will develop along the way. This, the visible part of the limestone skeleton of the Larzac, offers wonderful paths, colours and atmospheres that you will not find anywhere else. It is a beautiful way to discover the Southern Larzac between the Hérault and the Aveyron with three historic villages that are worth visiting. Pleasure and discovery are on the program here!
